# Perfection

*is in the details.*

The 19th century Impressionist painters applied color to their canvases with small brush strokes resulting, on close inspection, in seemingly unrelated dashes of paint.

But step back from the canvas. Now those unrelated paint dollops begin to reveal form. They begin to reveal lighting. They unify to create a powerful overall image.

MGM MIRAGE Events works in much the same manner.

Our planners, designers, support staff, and artisans diligently work to assemble all the details. They put together every essential piece. They leave nothing unchecked. And, when experienced in its final form, everything harmoniously intertwines to create an event that is brilliant, memorable and much more than the sum of its individual parts.

# Themed *and* Corporate Events
